Quick Monsoon Skin Care Tips

- 1.** Make sure you wash your face at least two-three times a day to avoid excess oil and dirt, further avoiding fungal infections.
- 2.** Drink lots of water to keep your body wary of toxins leading to acne and pimples.
- 3.** A rainy or cloudy day doesn't mean your skin is safe from the harmful ultra-violet rays of the sun. Use a good sunscreen every day to avoid any skin problem.
- 4.** Try not to wear makeup as it can clog your skin pores and cause break-outs. Even if you are, make sure you clean it well before going to the bed.
- 5.** While monsoons call for bingeing on fried snacks, you must avoid eating them as they can cause break-outs and acnes.
